

AMAN GUPTA

FULL-STACK & AI DEVELOPER

ag7921676@gmail.com | +91 7006450243 | Bengaluru, India | linkedin.com/in/aman-gupta-7b352a2a4 | github.com/amangupta0005 | portfolio-eta-six-pihjxyrel8.vercel.app/

PROFESSIONAL SUMMARY

Full-Stack AI Engineer with expertise in designing and shipping end-to-end AI-powered features from model to UI. Strong foundation in modern web development (React, Next.js, TypeScript) and SQL databases (PostgreSQL, Prisma). Experienced in leveraging LLMs and AI product patterns—including prompt engineering, structured outputs, and open-weight models—to build intelligent products. Comfortable owning work across the full stack (Model → API → UI → Server) in fast-moving, collaborative environments.

TECHNICAL SKILLS

Programming Languages: C, C++, Java, Python, JavaScript, SQL, TypeScript, HTML/CSS

Frameworks & Libraries: React, Node.js, Express, FastAPI, EJS, Tailwind CSS, Bootstrap, REST APIs, Vite, Next.js, Prisma

Tools, Cloud & Databases: MongoDB Atlas, Git, GitHub, Docker, VS Code, Postman, Jenkins, Tableau, NumPy, Pandas, Matplotlib, PostgreSQL, CI/CD, Prompt Engineering, LLMs, Open-Weight Models

Core Competencies: Data Structures & Algorithms, Object-Oriented Programming (OOP), RESTful API Design, Database Normalization & Indexing, Problem Solving & Debugging, CI/CD & Containerization, Cross-Functional Team Collaboration

KEY PROJECTS

QuickGPT – AI Chatbot Platform | React, Node.js, Express, MongoDB, Gemini 2.5 Flash, ImageKit, Redis, Docker, AWS EC2, Nginx, Stripe, GitHub Actions, OAuth 2.0, JWT [\[GitHub\]](#) [\[Live Demo\]](#)

- Architected a multimodal full-stack AI chatbot utilizing Gemini 2.5 Flash and ImageKit SDK, integrating Google OAuth 2.0 and JWTs for secure sessions and community image sharing
- Deployed a multi-stage microservices architecture on AWS EC2 via Docker, configuring an Nginx reverse proxy with automated Let's Encrypt SSL/TLS certificates and GitHub Actions CI/CD
- Engineered Redis-backed distributed caching, rate limiting, and token blacklisting to optimize database queries, alongside secure Stripe payment gateways for automated subscriptions

Resume Ecosystem Builder – Multi-Variant ATS Engine | Next.js 14, React 18, TypeScript, Tailwind CSS, Prisma ORM, PostgreSQL, Redis, Docker, AWS EC2, DuckDNS, Systemd, Zod [\[GitHub\]](#) [\[Live Demo\]](#)

- Architected a multi-variant resume platform with Next.js 14 App Router, TypeScript, and Tailwind CSS, featuring drag-and-drop project curation (@hello-pangea/dnd), real-time ATS keyword auditing, and instant 1-click Markdown export for LLMs.
- Engineered an atomic PostgreSQL backend via Prisma ORM with negative-index transaction reordering, paired with an in-memory Redis 7 cache and sliding-window rate limiter, reducing query latency by 80%+ and preventing brute-force access.
- Containerized the full stack into an ultra-lean multi-stage Docker image (~130MB Next.js standalone) and deployed on AWS EC2 Free Tier with 2GB swap, configuring zero-touch systemd boot automation for dynamic DuckDNS domain synchronization.

CryptoStack – Real-Time Crypto Tracker | React 18, Vite, Tailwind CSS, Node.js, Express.js, Socket.io, MongoDB Atlas, Redis, Docker, Nginx, AWS EC2, Let's Encrypt, CoinGecko API, Systemd [\[GitHub\]](#) [\[Live Demo\]](#)

- Engineered a real-time crypto analytics platform with React 18, Node, and Socket.io, delivering interactive price charts, multi-user chat, and live portfolio tracking via MongoDB Atlas
- Architected a Redis 7 caching tier and Docker microservices pipeline, reducing API latency by 75%+ while enforcing strict limits to run the entire stack within an 82 MiB memory footprint
- Deployed a self-healing AWS EC2 infrastructure using systemd boot automation, an Nginx reverse proxy, and Let's Encrypt SSL, achieving seamless dynamic DNS updates and zero-touch restarts

EDUCATION

Bachelor of Engineering (B.E.) — Global Academy of Technology, Bengaluru (2023 – 2027)

Computer Science and Engineering | CGPA: 9.38/ 10

Higher Secondary (Class 12) - JKBOSE — Govt Boys Higher Secondary School, Jammu (2022 – 2023) Science

| Percentage: 81.4%

CERTIFICATIONS

Operating Systems Basics — Cisco Networking Academy (November 2024)

Python Programming – Basic Certification — Python Institute / Online Fundamentals (July 2023)
